OPINII

„What an excellent experience this second mobility in the SALES project has been! The Romanian team from the Bogdan Voda Theoretical School of Hălăucești had gone all the way to give their guests a warm welcome. The whole week was planned and organized to the minute and involved both the school and members from the larger community of Hălăucești among which several entrepreneurs that our group visited or interacted with.

Without any doubt, the Bogdan Voda Theoretical School of Hălăucești is focused on internationalization as a way to create relations between their rural community and the larger world and create opportunities to improve the circumstances of their students, their school team and the larger Hălăucești community. Twice a public online communication with their Indian partner was set up during this mobility to underscore this aspect.

The camp site provided simple but adequate lodgings in a natural environment, allowing the participants full opportunities for informal meetings, nice seating in the garden for friendly talks, sports fields where even the shyest of students overcame their initial discomfiture to start talking in English, and there was ample space for feasting, singing & dancing. What a treat!”

teachers of Go! Handelsschool Aalst, Belgia

„Hello, dear friends. I would like to thank you for the great efforts you made during our stay in Romania. We returned so happy and satisfied with the wealth of activities. Staying in the camp was just amazing. We had a lot of fun during the nights. We learned a lot of your wonderful country, culture and traditions. It was a great experience for all of us. Thank you very much to all of you!.”

Zinaida Toncheva,
teacher of Professionalna Gimnaziya po Transpor Razlog, Bulgaria

„Hello, I would like to thank the host country for their warm welcome and for letting us be there. I liked the beautiful landscape and the place we stayed. It was also fun to get to know the other students and see how the lessons were giving in Romania. I learned a lot of new skills and the way other countries think I also learned more about the culture. I would like to go again to Romania to see the beautiful country again.”

Tristan Joos,
student at Go! Handelsschool Aalst, Belgia

„Erasmus+ was certainly an unforgettable experience. Romanians live a bit different than we do. They are more friendly, social, kind and so grateful for everything. We all enjoyed time spent there, building new friendships, learning how to work together as a team, getting to know their culture and seeing the beauties of Romania. I am really grateful for such a great experience but also for my living in Czech Republic. We all had the best time there and I can't describe how thankful I am for such an opportunity.”
