

ABOUT US

PrimMat- Private secondary school of business has been included in the network of secondary schools since 1992.

As the first private vocational secondary school in the region, we have introduced non-traditional educational study programs, not available in the region at that time.

PrimMat - Private secondary school of business has relaxed and friendly atmosphere, we value partnership, respect for the student's personality. Our staff is demanding but willing to help anytime.

Our school offers perspective field of study - "Business in Euroregion" combined with focus on:

Focus 01: travel and tourism

Focus 02: civil engineering

Focus 03: ICT

STUDY PROGRAMME

OUR FACILITY

Teaching takes place at our own building that has all necessary equipment – two ICT classrooms, an interactive board, data projectors and PC's in the classrooms, laptops for teachers and students.

The school also implements projects to support the modernization of teaching, quality language, mathematics and vocational education.

ENTREPRENEURSHIP

Our school supports development of business creativity and entrepreneurial skills by the programme of fictive student start-ups.

Practical skills are further developed by students' five-week internship programme relevant to the chosen study focus.

INTERNSHIP
