# KONYA

Konya has been playing a central role being a cradle for many civilizations throughout the history.

It is one of the unique centers that combine its historical heritage and cultural accumulation with present time.

Archaeology shows that the Konya area is one of the most ancient settlements of Anatolia. Excavations in Catalhöyük and other places show the region was inhabited as far back as the Neolithic Period.

Konya province is considered to be the agricultural capital of our country with its large agricultural areas, irrigation facilities, geographical location.
